

evolution[®]
**THE THIRD
GENERATION
of Endospheres**

USA

CLINICALLY PROVEN RESULTS

Endospheres® is the only patented technology that uses **Compressive Microvibration®**.

Designed by Italian bio-engineers, it harnesses low frequency vibrations generated by the movement of its handpiece spheres to work on the body in a safe and **non-invasive** way.

Thanks to its spheres “honeycomb” arrangement, the handpiece follows every single curve of the body, releasing a deep feeling of well-being.

The combined action of the produced vibrations and the compression of the handpiece on the tissue give sensible results from the first session.

ENDOSPHERES® IS A **PROVEN** THERAPEUTIC MASSAGER

Temporarily **improves** local blood circulation

Provides temporarily relief of minor muscle aches and pains

100% NON-INVASIVE | 100% MADE IN ITALY

evolution[®]

THE THIRD GENERATION OF ENDOSPHERES

Evolution is **the third generation of Endospheres**.

Its tools allow to improve and optimize the treatment.

The new design is elegant and refined.

HI-TECH SYSTEM

11" ULTRA HD TOUCH SCREEN DISPLAY

For an easy, fast, and intuitive user experience.

CLIENT DATA ACQUISITION

Client data (age, weight, height, structure...) can be stored for complete client history and for checking his/her improvements.

CONNECTION

Evolution is always interconnected so as to detect and install any update automatically.

ONLINE ASSISTANCE

Professionals can ask for assistance and our specialists can work **remotely** on the device.

THE IDEAL TREATMENT

MONITORING

The system allows the operator to check whether they are following the procedures correctly at all times, thanks to a chart that simultaneously compares the operator's way of working with the ideal one.

TREATMENT PROTOCOL GUIDE

Evolution protocols are also shown in a series of videos, which give specific instructions on the pressure to be applied, the frequency, and the lasting of treatment.

More precisely, there are two kinds of videos:

- single manoeuvres of the protocol;
- the whole course.

3 IS THE PERFECT NUMBER

The new body handpiece has been totally redesigned, with the display showing all treatment information in real time.

3 SENSORS

The handpiece has 3 more sensors aimed at detecting the most critical areas to optimize the treatment.

3 ROTORS

3 rotors are available, one for each cycle of treatment:

- **gel spheres**, for the pain relief stage;
- **silicone spheres**, for the functional stage;
- **VD-TECH**, with two types of spheres, hard and with variable density, for localized actions.

ANALYSIS

Endospheres Evolution allows to make an **accurate anamnesis** of the client condition and monitor his/her improvements thanks to the **thermal-camera** that combines two technologies in one system:

- a **high-resolution thermographic sensor** that shows the various thermal differences in a single picture, marked with different colours;
- and a **high-resolution camera** to photograph the body, in order to make a visual analysis of the results obtained.

FACIAL TREATMENT HANDPIECE

Evolution is available also in the ALL version, which has both the body than the face handpiece, which's ergonomic shape and the direction indicators **allow the professional to easily perform every manoeuvre.**

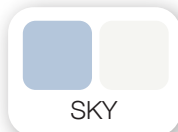

MOBILE APP

Through a mobile app, the client can see all the information relative to the treatment and monitor his/her improvements. Moreover, the app can connect to any Evolution device, allowing the client to continue the cycle of treatments underway anywhere.

COLOR OPTIONS

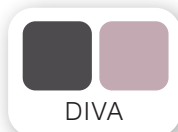

Evolution is available in **4 colour options** to perfectly fit with the style of your institute.
